

# Research Question

# What is research?

- Find **answers** for an *original* question.
- Define a *question* !!!
- You are trying to tell a story
  - \* Build a narrative to coherently answer the *question*.

# Where to start?

- How do you plan a vacation trip?

# Where to start?

- How do you plan a vacation trip?
- *Endgame* to provide a better and effective *roadmap*

# Where to start?

- How do you plan a vacation trip?
- *Endgame* to provide a better and effective *roadmap*
- Important aspects to provide a decent planing?
  - Problems?
  - Instruments?
  - Who is going with you?

# Question Diagram

- Hypothesized conclusions
- Variables
- Mock tables and graphs

QD

# Literature Review

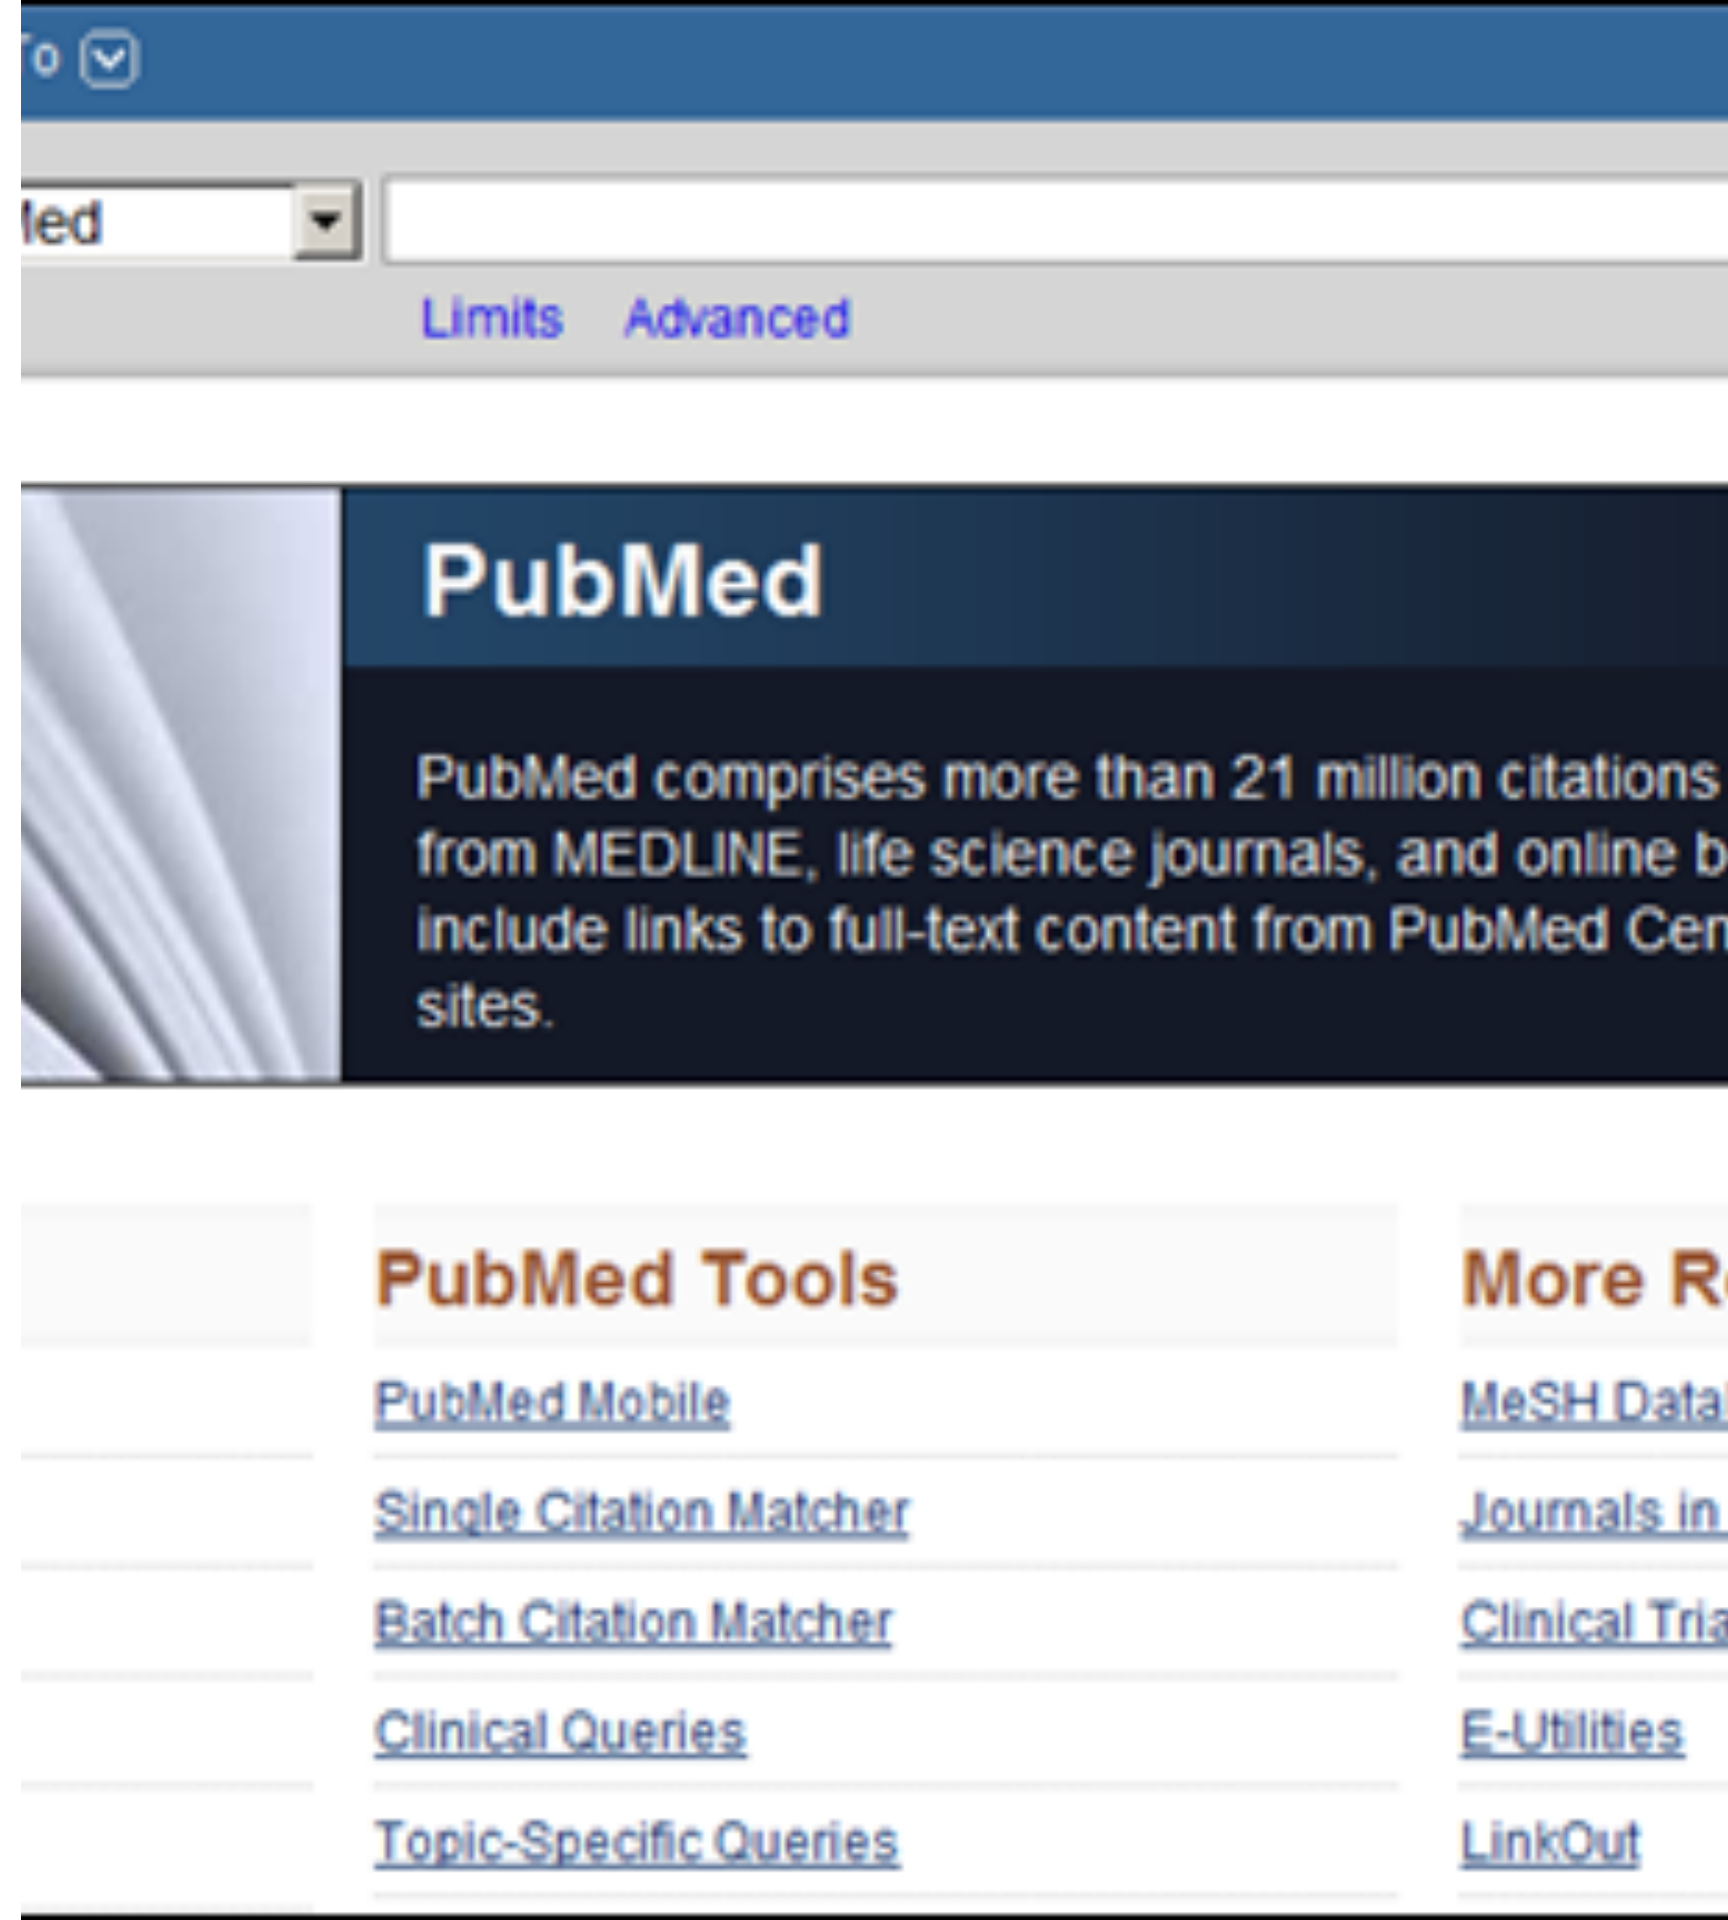

# Why do literature Review?

- Identify if the trip is going to be interesting or not!!!
  - Test the *originality* of your research question.
  - Do the homework!!
- How would you do?

# Databases

- Indexed databases
  - PUBMED/MEDLINE
  - EMBASE
  - Web of Science
  - Global Health Library
- Not indexed but GOOD!
  - Google scholar

# Agile literature review

- Top Down or Bottom up?
- References
- Citations
- Iterate, iterate, iterate, iterate...
